Well shoot me down... I DID write a note of the discussion. But not one you would have seen, Celia. Here it is.

And Duncan – re David Brock: can't recall, but it wasn't extensive and I think was encouraging Oriel to consult with EHT / about interpretation.

Subject: Rhodes discussion Commission July 2016

Dear Colleagues

Please find attached a draft note re the discussion we had last Tuesday on the Cecil Rhodes plaque issue. A suggestion was made in the Commission meeting that such a note might be valuable. As the discussion wasn't minuted, I have pulled together my notes of the exchange. I hope they reflect what was said – there was a lot going on. These will be augmented by the discussion on diversity at the meeting which touched on some of these issues.

If there are any corrections needed, please suggest changes. Mike, over to you as to the fate of this note.
